

Testosterone Sustanon 250 Esters

[**→ VISIT OUR STORE ←**](#)

Sustanon 250 is a blend of four different testosterone esters, all carrying unique "digestion" times ranging from fast to slow. What this theoretically means is that the compound will enter the system in a rapid fashion, and its release will be sustained over an expanded time frame. In order to understand how this blend of testosterone esters is going to work within the human body, we simply need ...

The exact blend of Testosterone esters in the Sustanon 250 blend is as follows: 30mg Testosterone Propionate 60mg Testosterone Phenylpropionate 60mg Testosterone Isocaproate 100mg Testosterone Decanoate. These Testosterone esters form a combined total of 250mg of testosterone, hence the number 250 in the name Sustanon 250. Where I am and what I've received, has been a result of me simply staying the course. Everyone knows how to respond when things are happening in their favor, but do you remain consistent when things are not? How you answer will determine your success.
