Testos-P 100 Reviews. REG; 37 . Mars; 8 years ago; was looking to get some of this and the testos -PH 100 but they're out of stock .. looks like everyone's loving this stuff.. I'd like to report the testos -E 250 is great, a lil thick but no real pip and great quality imo. don't understand why only some of the products are listed lol. BAN; 13 . TESTOMED P 100 (Testosterone Propionate) is an injectable compound with with a faster rate of release than all other esterified forms commonly available. It is simply Testosterone with the Propionate ester bound to the Testosterone chemical structure.

More applications, less equipment: if you already own one of our probes with a universal handle, you can easily expand your portfolio of probes with the 100 mm vane probe head.

The recommended dosage for Testo P 100 is 50 to 200 mg per day for men and 25 to 50 mg per day for women. If used with other compounds such as Proviron and Nolvadex, the bulking effects can be improved. Make sure you administer the steroid according to the recommended dosage other side effects might appear.
