Winstrol is a 17C-AA anabolic steroid, which means that it is a methylated oral steroid that needs to bypass the liver to be available for absorption. This makes it liver toxic. That's irrespective of whether you use the oral or the injectable. Both are 17C-AA and both are liver toxic.

Så langt kom jeg forrige vinter før ryggen sa stopp. Må klare et bedre løft teknisk med tyngre vekter før sommern kommer og kiloene raser av igjen ☐

Throughout the day I will eat mostly Keto, I find eating this way really helps keep my focus and energy levels consistent throughout. I'll go into more details as to why in a future post.
