Introduction to Turinabol. Turinabol or Tbol is an oral steroid, unlike other androgenic anabolic steroids that need to be injected. The anabolic steroid has a half-life of sixteen hours.

Another useful tool is the plate method. This states that half your plate should be vegetables, a quarter starchy carbohydrate and a quarter protein.

A world that sometimes controlled me when making decisions, feelings, life etc. I was taught things about life the other way around. Why??? Decided to check and see where my strength was today since I have put on weight recently and first I have to say that I love when people support and help eachother. My good friend Jon was working out close by and noticed I was needing some help. I got 4 reps with 185 which for me is amazing. Yes the last 3 were assisted but I'm very happy with it. Shooting for 200 and I know I'll get there soon.
