Winstrol Oral Depot - Winstrol Inject Or Oral Stanozolol is an oral anabolic steroid created by Winthrop Laboratories in the 1950's under the popular trade name Winstrol. After the release of the oral form, which came and continues to come in numerous varying doses, injectable Stanozolol was released. Winstrol oral half life: 9 hours; Winstrol injection half life: 24 hours; There is no difference between the strengths of oral and injectable Winstrol. 5mg of either type is the same amount - what does differ is how quickly they are absorbed and used up by the body which is reflected in their half lives listed above.

Winstrol Base manufactured by Euro-Pharmacies is 100% pure Winstrol similar to aqueous Winstrol Suspension however Winstrol Base is technically a solution not a suspension. Winstrol Base contains no visible Winstrol crystals because they are in an oil and solvent solution NOT water. There are no crystals to slowly absorb into the injection site.

winstrol: Highest concentration made - 25 mg/ml Per 1 gram of Stanzolol you will need: 7.8 ml's of PEG 300 31.2 ml's of 190 Proof Grain Alcohol-----Solutions requiring PEG and 190 Proof Alcohol Step 1. Prepare a hot water bath. Boil water in microwave or on a pot.

WINSTROL (anabolic steroids) , brand of stanozolol tablets, is an anabolic steroid, a synthetic derivative of testosterone. Each tablet for oral administration contains 2 mg of stanozolol. It is designated chemically as 17-methyl-2' H -5(alpha)-androst-2-eno[3,2- c]pyrazol-17(beta)-ol. Winstrol Oral pills are usually taken twice a day (it has a 9-hour half-life) and the dosage varies from 40-80mg depending on your tolerance to the compound, your goals and your experience with AAS. A typical Winstrol cycle should not extend more than 6-weeks and you should not use any other C17-aa steroids during the cycle.

When injectable Winstrol is prescribed, it is normally given at a dose of 50mg every 2-3 weeks for both male and female patients. In performance circles, standard male Winstrol doses will normally fall in the 25-50mg range. 25mg per day of oral Winstrol or 50mg every other day of injectable Winstrol is very commonplace.
