Known under the names.

Alternative Therapy New Program

If you want to live healthy, at any age, you need to learn to control something that you do not hear often, but my masters of Qigong and years of my practice have told me, control your energy. Not only by investigating the metabolism, I understand the importance. But also by controlling the flow of energy -

1. Produces your organism with food and that makes you healthy.
2. The energy of your spirit and your soul, which are intelligent and are spirit and soul living in your body.

You can feed your body with steak, fish, vegetables, but you cannot feed your spirit and soul with this. That a Taoist saying, and the meaning of intelligent energy "there will be no mistakes if you walk with your feet" now know that your soul and spirit are really intelligent, so you need to feed your energy. I feed my soul and spirit with energy, I learn to keep it in my reason, health and good energy aid the outcome of everything. Without energy there is nothing left, people need to understand how to receive from the body. Your spirit is soul and you need to feed it. Feed your body with energy.

A brief hint on how: In the abdomen lies the origin of our life, the umbilicus where you receive nourishment, oxygen and for which the umbilical cord is cut as it is no longer needed by your evolving body. You breathe and gradually nourish yourself. This is why we must learn to feed our belly, to give energy (chi in china, prana in India). If you do this you can maintain energy, for which health and good energy that you need is necessary for the exit in your life and live healthy. Remember that without energy, you cannot live well. If you understand how to understand the messages that you receive from your body.

Nothing is impossible for our spirit and soul, which lives within us. We can help you live in health. The universe is full of spirit and energy. The starry night, the sky you see is energy and is also within us. Alternative Therapy are working for you to understand that your brain is not the only organ. Heart, stomach organs, livers, kidneys, intestines etc are the v
