Description. AndroGel 50mg - Real Testosterone Gel. A little dab will now do those men who have low testosterone levels. The Food and Drug Administration has approved Unimed Pharmaceuticals AndroGel 50mg, a clear, testosterone-containing gel rubbed into the skin, as an alternative to current testosterone therapy.

ANDROGEL® is testosterone gel for external use. It is used to treat the impairments in men caused by the insufficient production of natural testosterone by the body. Androgel provides a constant concentration of the hormone in the blood, thus decreasing the symptoms of androgen deficiency, increasing lean body mass while decreasing fat mass, improving mood and sexual function, decreasing bone. Testosterone Transdermal Gel: In topical testosterone, the hormone is released slowly through the skin to deliver a constant level of androgen hormone into the bloodstream. Topical gels and creams are normally applied once or twice daily in a dose of 20mg to 80mg depending upon your doctor's prescription.

AndroGel[®] (testosterone gel) 1% and 1.62% are controlled substances, available by prescription, used to treat adult males who have low or no testosterone due to certain medical conditions.. It is not known if AndroGel is safe or effective to treat men who have low testosterone due to aging. It is not known if AndroGel is safe or effective in children younger than 18 years old.
