Active substance: Stanozolol Common names: Stanozolol, Strombafort, Winstrol, Rexobol Usually, Rexobol 10 Alpha Pharma is not used as a bulking steroid. As it is very hepatotoxic, its use should be restricted to when it's most needed. Still, some women found it very effective to use it off-season bulking, due to short burst plans that can be very appreciated during this phase.

One of the biggest things that keeps me from getting back into that hole, outside of my support system of family/friends who I call family, is the gym. Everyone who goes to the gym or is into fitness gets a bad rap as someone who likes to seek attention or they're shallow. If I ever actually do something to come off that way, slap me. But the reality for me is, I need this. I don't just do it because it helps me look a certain way. It keeps me even, gives me something to work towards, and provides a routine.

# 6 meals to **BULK UP**

***Steak and potato***

***Lamb Roast***

***Chicken and Sweet  
Potato***

***Shrimp & Rice***

***Bison and pasta***

***Salmon and Rice***

For 5 months I woke up at 3am. Went to the gym. Did 15 minutes of cardio, then a hour or two of weight training, then abs, and finishing it off with a 5 mile run with a sauna suit.
