NovoRapid FlexPen is a pre-filled pen (colour-coded) designed to be used with NovoFine or NovoTwist disposable needles up to a length of 8 mm. FlexPen delivers 1-60 units in increments of 1 unit. NovoRapid FlexPen is only suitable for subcutaneous injections. If administration by syringe or intravenous injection is necessary, a vial should be ... Your hormones play more of a role in your appearance than you may think. If you are dealing with dry, flaky skin or your skin is losing collagen or wrinkling at a fast rate, it could be due to a hormone imbalance. Addressing the imbalance is a vital step to preventing aging and turning back the clock.

Sebab apa?? Bila si penerima guna pakai masa solat, kita pn sama dapat pahala.. Allahu.. sapa nak bagi pahala percuma tu.. Ajom kumpul pahala. □□□

How RFID works with Lifting Elements?

RFID Chip transmits radio waves which are read by cell phone or RFID reader unit. By reading the waves through dedicated app, we can:

- 1 Find the unique Part Code of Lifting Elements.
- 2 Through the app, we can assign location where the lifting element is to be used
- 3 Know the last Inspection Date of that Lifting Element & Schedule Next inspection date
- 4 Determine whether the lifting element is safe to use or not by checking the lifting element as guided in app

FIBRO KNOW-HOW
To Your Advantage

What NovoRapid contains. The active substance is insulin aspart. Each ml contains 100 U of insulin aspart. Each pre-filled pen contains 300 U of insulin aspart in 3 ml solution for injection. The other ingredients are glycerol, phenol, metacresol, zinc chloride, disodium phosphate dihydrate, sodium chloride, hydrochloric acid, sodium hydroxide and water for injections.
