Bright office lights which are in the blue spectrum have been shown to increase migranes as well. Often, exposure to bright light during a migraine attack can worsen the migraine itself. Researchers believe that receptors on the retina of the eye (called photoreceptors) detect light and transmit signals to the cerebral cortex of the brain, where migraine pain is perceived.

PPS. This post is a part of diet culture that pervades every bit of our lives. I hope if you read this, you don't feel pressurized to be working out because well, you don't need to. There is an ableist, arbitrary value attached to "being fit" and exercise is viewed as a part of that. As a person desperately looking for ways to earn to support myself I am capitalising on my knowledge of movement that I have gained through my years of being an athlete. I hope you keep this in mind when you read the post !

Insulin aspart 100 IU 1 Units/pack MRP 641.20

We can let the negativity seep in or we can feed the positivity in every situation we come across. It's how we choose to talk to ourselves that allows us to move forward in a positive direction. [ ]

NovoRapid Penfill 100 units U/ml solution for injection in cartridge. ... whereas the potency of human insulin is expressed in international units (IU). NovoRapid dosing is individual and determined in accordance with the needs of the patient. It should normally be used in combination with intermediate-acting or long-acting insulin.
