Trenadrol. More widely known as Dienedione, Trenadrol converts into the orally active androgen Dienolone, popularly referred to as Tren. Neither Trenadrol nor Dienolone are related to the steroid Trenbolone though despite its Tren nickname. Instead, it seems to have garnered this nickname due to the relatively similar effects to trenbolone .

TRENADROL 250™ - Primo Labs

Feb 22, 2009. #15. EasyEJL said: no its not the same compound as mega trn, even though that is what is on the label. Trenadrol is 30mg a cap, and honestly 30mg of methoxy-trn would have you all wiggled out something horrifying. Author L Rea of ALRI stated that Kilosports "got it wrong" when they cloned methoxy-trn, but gave no details.

HMB Revolution 300 capsules

ENG Arginine Beta-Hydroxy Beta-Methylbutyrate

FOODSTUFF FOR PARTICULAR NUTRITIONAL USE

HMB Revolution is an improved formula of one of the most popular products in body building and other professional sports – **HMB**. It contains an appropriate combination of short-chain fatty acid (B-hydroxy B-methylbutyrate) and **ARGININE** – a potentially indispensable amino acid. **HMB** shows strong anticatabolic effect, which protects muscles against damage, and arginine supports growth hormone (GH) production by pituitary gland; it is also a precursor for nitrogen oxide (NO) production – i.e. production of the substance which increases the rate and amount of blood delivered to muscles. This gives the effect of significant muscle tension and "pump-up", which indirectly contributes to muscle mass and strength gain. Daily application of **HMB Revolution** contributes to building high quality muscles, at the same time reducing unwanted fatty tissue.
