

Side effect of Evista/Raloxifene on thinning hair Shula7 Sep 23, 2020 • 7:47 AM I am 72 years old. I was recommended by a rheumatologist and primary care doctor to try Evista 60 mg for bone loss of the spine. However, I have androgenetic alopecia and significant hair thinning. This is caused by dihydrotestosterone (DHT) blocking the hair follicles.
