My previous cycles was Test E 500mg 10weeks, Test E 500mg and Tbol first 6 weeks and Test E 500mg and Anavar 50mg last 6 weeks off the cycle. Stats: 39 years old, 5'8", 203 lbs, aprox 14% BF. Summer cycle. Goal is to gain quality muscle. I've ran both test and var before so the only compound I don't have any experience with yet is primo. weeks 1-5 anavar @ 30mg ed [qv] weeks 1-5 primo @ 100mg ed [qv] weeks 1-13 test enan @ 500mg/week [either qv or animal power] weeks 1-12 eq @ 500mg/week [either qv or pets pharma] pct 17 days after last test shot. I have nova on hand but I dont useit unless I feel like im getting gyno. #talkwithalaina #traumainformed #mentalhealth #mentalhealthawareness #anxietycoach #selflove #trauma #anxiety #anxietysupport #depression #entrepreneur #mentalhealthmatters #femaleownedbusiness #mindfulness #weightlossjourney #smallbusiness #inspiration #fitness #healing #healthcoach #breakthestigma #anxietyrelief #generationalwealth

Which of the following  
a side effect of digoxin

A

**Nausea & Vomiting**

B

**Hyperkalemia**

C

**Atrial flutter**

Please join this discussion about EQ or Primo with Anavar? within the Anabolic Steroids category. ... Frontload then a nice even 500mg for 11 weeks. Adding masteron and winny with some low does of test. Eq can add some nice muscle if you know how to eat and how to train, otherwise you may as well use Corn Oil. 11-Sep-2004, 01:24 PM #5. PRIMO/ANAVAR/DECA/TEST/EXEMASTAINE  
CONTEST CYCLE Weeks 1-12 - 700 mg/week Primo, 50-100 mg/day Anavar, 200 mg/week deca, 200 mg/week test (drop Deca 2 weeks out from show, use Arimistane for PCT daily). That is pretty much how I do things folks. I run those compounds exclusively and see no reason to add in all the other quick-bang bullshit.

Where do you  
find your joy?

steroids that people use in conjunction with EQ include; Testosterone Propionate, Enanthate and  
Cypionate, Anadrol or Dianabol, Sustanon-250, Anavar or Winstrol. Of course the list does not stop  
there. The options are endless when it comes to stacking and the creation of powerful cycles.

Feliz  
Viernes Santo!

The study found that the risk of hospitalization among patients was decreased by 85% and 94% by Pfizer and AstraZeneca vaccines respectively. The data was collected between December 8 and February 15 with 21% of the Scottish population receiving the first dose. 1.14 million doses of the vaccines were administered during the same time. In a separate Public Health England (PHE) study, it was found that vaccination reduced the risk of being admitted to the hospital and dying by at least 75%. Whats up guys I posted a while back about running a test /Eq cycle, Ordered everything and had a problem with my package so I am pushing the cycle back a little but I have the opportunity to get anavar at a relatively cheap price, so my original plan was Test: 500mg/wk, EQ: 400 mg/ wk 16 weeks, Now I am thinking I could do: Wk 1-16 - Test E-500mg/wk Wk 1-16 - EQ - 500 mg/ wk Wk 1-4 - Anavar ... #bodybuilding #bodybuildinglifestyle #gymtime #weightlifting #strong #muscleandhealth #6pack #abs #trainhard #strength #ripped #shredded #squat #sweat #gymtime #gains #fitnessmodel #powerlifting #fitnessaddict #trainhard #crossfitness #crossfitwod #gymlife #instafit [navigate to this web-site](#)
