Drostanolone Enanthate 200mg Swiss Remedies. Drostanolone Enanthate or Masteron is probably one of the most interesting steroids used by athletes. It is primarily designed for the treatment of breast cancer patients to inhibit estrogen production. Estrogen is the hormone secreted by females that gives them their distinct gender characteristics. I'll be real. When I reached down to grab the 180 kilo barbell, I let doubt creep in my mind and said to myself "I don't know if I can do this" and that translated into me not being able to pull it. 😬
