So, if you've been put on round after round because of your Ehlers Danlos syndrome, Lyme, rheumatoid arthritis, etc. please do your research and look for alternatives. I do take hydroxychloroquine and amitriptyline, along with some mild pain killers. I have found that needling DEEP inside my muscles helps get me out of pain and would've helped me during those times that I couldn't move my neck. But I didn't have that resource then. I did not have that knowledge then. It pains me to know I could have protected myself more. I was also very dependent on diclofenac for 11 years. I never had stomach distress from it. I was one of the lucky ones. I was able to get off of it recently because of the hydroxychloroquine.

LE MUSCLE

COMPOSITION

@tfitcoaching

Le muscle est composé de :

- tissus conjonctifs = tendons
- faisceaux de fibres
- fibres musculaires
- myofilaments
- vaisseaux sanguins
- nerfs (motoneurones)

La fibre musculaire est composée de myofilaments d'**actine** et de **myosine** qui sont des protéines contractiles à l'origine du mouvement musculaire, donc de la contraction musculaire.
