doing 50 mg/ed of tbol now, always heard that going over 80 mg/ed of tbol is a gas and headache nightmare 07-16-2006, 07:03 PM #5. doittoit. Associate Member ... another one to add to the list.. its ok for people to run drol @ 200mg or dbol @ 100 mg per day., but 40mg tbol and 40 mg of var is TOOO harsh, right.. I see what your saying but it ...

A little needed acupuncture today...learning that this journey to stage is more than just diet and exercise!

I'm lost for words all I have to say is testosterone thank you 10000% for changing my voice. How did any one listen to me talk before? ☐ .

☐ When it comes to oral steroids, we often feel that Turinabol or TBOL, doesn't get its due. On the internet, often there's so much talk about Anavar being the friendliest steroid and Anadrol being the best bulking compound. Very few people ever mention running a TBol cycle. That's quite surprising, considering that it is a very well tolerated compound that was a large part of the East ...
