But it can get you good results. If you have run multiple cycles of Dianabol, then you can go up to 25-35mg/day. Even 50mg/day. But that's the upper limit for us. We'd personally never recommend anything above 50mg. Not unless you are Kai Greene. You can also use Dianabol as a kick starter to your testosterone cycle for the first four weeks.

Dianabol was one of the first anabolic steroids ever produced and is responsible for many early day Olympic successes and has remained one of the most popular steroids of all time and for good reason! Highly anabolic, is a favorite among competitive bodybuilders & powerlifters for its ability to add massive amounts of raw size and strength in ...
