Testosterone Propionate is one of the most sought after androgenic anabolic steroids in iron sports. This is an injectable form of testosterone with the shortest ester Propionate.

I know you might want to give up or give in but you've got to keep believing and keep working harder than the rest because I promise you, your results will come and when they do all the work will be worth it [1]]

Within the context of programming, each individual athlete is special. The "no one is special" trope is lazy and/or ignorant.

Organon Sustanon 250 Review. Sustanon is an injectable form of hormone designed for the treatment of hypogonadism or chronically low levels of testosterone in men. Organon Sustanon 250 is one of the older forms of the steroid that has been used by bodybuilders, weightlifters, and athletes for nonmedical use, mainly in the promotion of accelerated muscle growth and development prior to ...

Coaches default for nutrition is to have clients count calories. It's true the evidence shows this is the best result for most people but might not be the most practical. Instead ask what's one thing this person can do better. That might be counting calories, that might be just eating their protein first in every meal. There's no one size fits all coaching.

Intuitive Eating is not anti-health, anti-vegetable, anti-nutrition. Quite the opposite considering there's an entire principle dedicated to nutrition.

...
