CJC-1295 DAC which stands for (Drug Affinity Complex) is provided with 2mg of lyophilized powder. This is a 30 amino acid pharmaceutical grade research peptide. Other peptides can be drawn into the same syringe to minimize the number of injections needed for desired testing. CJC-1295 DAC is essentially a peptide that boosts protein synthesis. Entscheidend ist natürlich wieviel Kalorien pro Tag aufgenommen werden. Es heißt nicht das man alles essen darf, weil man eh aufs Laufband geht ;-)

Getting the CJC 1295 DAC dosage right isn't easy as it needs to be carefully balanced. It comes ready-prepared by one company in particular who license the technology. CJC 1295 DAC therefore delivers the same therapeutic activity as the base peptide but for a much longer amount of time. Risks and Side Effects of The Drug
