Jan 4, 2012. #2. i'm not a big fan of running two toxic, oral anabolics at the same time. even if the doses are reasonable, you just can't be sure (or I'll just say I personally don't trust) how their metabolites will interact. Meaning, I would have a concern about the combo being more toxic than the sum of their pieces, if that makes sense.

Dbol vs Winstrol. Which is better and why? | Evolutionary. org .

Date: October 28, 2023 Imagine you're at a crossroads, having to choose between two popular steroids: Dianabol and Winstrol. Dianabol, the pioneering steroid on the market, has its fair share of fans because of the quick gains it can offer. But it's also notorious for a laundry list of side effects that tag along.

Dianabol vs Winstrol: Choosing the Right Steroid for Your Goals

May 16, 2016. #2. Both winstrol and dbol are liver toxic oral steroids. Using both in the same cycle isn't the best idea. Your first cycle should be a testosterone only cycle. It will provide more keepable gains and be a lot easier on your body. Testosterone should be the base of any steroid cycle.

WHY:

- Because Anavar was too expensive?
- To get **mass** with no pinning
- **Mild sides** with notable results

WHEN:

- With Testosterone base **ONLY**
- When you need some **synergy**

HOW TO TAKE:

- **25mg** beginners, up to **100mg** pro, ED

THINGS TO KNOW

- **Joints pain** issues are nasty
- Keep an eye on your **hair**, might lose it

Although winstrol-users ARE likely to build muscle, this won't be as much compared to taking bulking steroids, like anadrol or dianabol. Not many steroids in the world can build muscle and burn fat at the same time, but winstrol is more than capable of doing this.

winstrol and dianabol stack for a first cycle | Evolutionary. org .

Cycle length I'm thinking 6 weeks if I take them at the same time or maybe week 1-4 dbol, 5-6 dbol and winstrol then 7-8 just winstrol. Also with dbol I would take it split up twice, from what I read you shouldn't take it once but taking it split up too much is wasted as it passes through the liver. Word.

Dianabol vs Winstrol - Which is More Effective

I usually take DBol 10mg tab first thing in the AM and then every 4 hours until bedtime. I have had no side effects using DBol before (oral that is) but I have never tried Winstrol. I really really appreciate your advice and information you give on your social media pages, especially to us guys that need it.
