Synergy between dbol&tren Read an article that I can post if anyone wants to see it but the writer made a case that tren ace and dbol have a great synergy and that 50mg of each ran together is more powerful I'm guessing on a mg for mg basis than 100mg of each ran alone? Is this just bro science or does anyone have any light to shed on this?

Jul 7, 2016. #7. I personally don't like stacking orals with Tren because it's just too harsh on the body, so I'd leave out the Dbol myself. Tren alone will overshadow the Dbol anyways, and for your first Tren run you don't want to overcomplicate things by adding other steroids in there you don't need besides test.
