Ireland is one country that has seen a dramatic increase in steroid use - especially in men between the ages of 18 and 35. Though steroids in Ireland are illegal, that has not stopped users from finding them online.. Extreme steroid users even stack anabolic steroids, including trenbolone and boldenone, both of which started out as veterinary hormones. #homegym#futurehomegym#garagegym#garagegymreviews #garagegymlab #gym#bodybuildinglifestyle #bodybuilding #naturalbodybuilding #czechfitness #fitness
