Dianabol (commonly known as "D-bol") is considered by many to be the "King" of oral steroids. And it's no wonder. Mg per mg it packs the biggest punch of any other form of anabolic enhancement. (With the possible exception of Trenbolone).. Even in cases where people don't like the results, D-bol's impact cannot be denied.

Photo 2: Sally has made significant improvements to her depth abilities in 6 weeks. Her knees are starting to track over her toes with great improvements to ankle flexion, hip mobility and overall ROM.
