Hear me out. With fitness if you have taken a prolonged break in training or maybe you are just starting for the first time I would encourage you to start slow. Maybe 1-2 days a week low intensity, shorter duration, low volume and low load. Reason being you want to allow your body time to recover and adjust to the stimuli you are placing on it. Then with time you have room for growth. You can progressively increase intensity, duration volume and load overtime. This is a more sustainable approach.

Just one week of this 2020 prep left. ☐ Know there's room to improve so we keep on pushing. Awesome session today @shredzfitnesscentre #FridayFeeling #LetsWork #MensPhysique #NattyShred
