Re: Winstrol (Stanozolol), Clenbuterol, T3 Cutting cycle. Unless you are days before a big competition there is no reason to take in only 1300 calories a day. 28-Mar-2011, 02:11 AM #8 Answer (1 of 2): Stanazolol is a steroid. Steroids are banned and should not be used for general fitness (only for professionals). Clenbuterol is not a steroid , it is prescribed for people suffering with asthma. But before competition or photoshoots, ATHLETES use it . Again no use for genera.

Then 1 tablet for last 3 weeks.(PCT) - 1 week after last Stanozolol tablet.
