If we were to sum up the effects with one word, the positive effects are **incredible!** It is used in cutting & bulking cycles. Tren is the single best protective agent for not losing muscle whiles being in a caloric deficit. Tren will actually improve the individual's metabolic rate thereby increasing the rate by which fat is burned. Hardness, muscular definition & vascularity is being produced only by Tren. Solid gain of muscle mass & no water retention.

Reposted from @emergency.ong Doveva essere **semplice e immediato**. Chiaro ed essenziale, replicabile facilmente ovunque ci si trovasse, anche con un po' di vernice rossa, un pezzo di legno e una corda. Così è nato, 27 anni fa, il logo di EMERGENCY.

Oxymetholone is commonly used as an off season mass building drug, though some mass monsters have used it up to 7-10 days before competition by stacking antagonist anti-estrogens and diuretics.

Unfortunately this drug is probably the most dangerous of all AAS when abused and utilized when not under a physician's care. #backday #latpulldown #bigmuscles #muscles #backworkout #hit #hitithard #hypertrophytraining #muscle mass #leanmuscle #sexyfitness #likzpost #trainharderthanme #pullday #neverquit #trainsmart #anabolics #bodybuildermotivation #bodybuildingmotivation #comptrain #likeforfollow #muscle d #personaltrainers #coaching #loveyourself #gymfreak #fit #fitlife #videostar #video Oxymetholone 50mg Magnus Pharmaceuticals. Oxymetholone 50mg Magnus Pharmaceuticals is a potent oral anabolic steroid derived from dihydrotestosterone. More specifically, it is a close cousin of methyl dihydrotestosterone (mestanolone), differing only by the addition of a 2-hydroxymethylene group.

Similarly, there is a risk of side effects. Oxymetholone is highly effective in promoting extensive gains in body mass, mostly by greatly improving protein synthesis. Platelet-rich plasma or PRP is a component of blood that contains special proteins called growth factors. The concentration of platelets and growth factors has important implications in tissue healing, supporting cell growth and reducing inflammation in the body. PRP is used for pain

management, hair restoration and aesthetic purposes such as fillers & collagen induction therapy. [linked here](#)
