growth hormone injection malaysia

I grew up in a super conservative family where the generation before held a lot of these values and traditions that I didn't understand or agree with. It was very difficult growing up fighting the constant pressures to be feminine and complacent in a system that deeply hurt my soul. I'm proud of myself for always pushing forward to get to where I am today. I get now that a lot of those were moments of dysphoria and not having an outlet to adequately process it through.
