Our community has been left behind. Left behind in research, funding, pseudoscience, and stripped of hope & money. 10s to 100s of thousands of dollars have been spent by INDIVIDUALS on treatments that Do NOT work at least 50% of the time. Please NOTE that Lyme suffers do not get approval for disability and many have lost so much including time with family, careers, dreams, etc. Additionally, treatments are more than not out -of-pocket and people go see Lyme Literate Doctors or Natural-paths. Chronic Lyme sufferers are on a spectrum from functioning okay to being bed ridden. Some are in a wheel chair, lost their memory, and lost all family support who may not believe it's real. ** This can often be because regular doctors don't believe or are uneducated on chronic Lyme and blame these laundry list of symptoms on "Mental Health" 😊🙄.
