Cut Stack 150 Cut blend of trenbolone acetate 50mg, masteron propionat 50mg and testosterone propionat 50mg, each ml. Trenbolone Acetate is used for both anabolic and androgenic benefits such as enhanced muscle mass, and strength while shredding excess body fat. It can build your muscle mass at a faster rate compared to other anabolic steroids. Final Verdict. 10. Slightly overdue however I ran this cut stack 150 in the winter months. Ordered 2x 150 and ran 1 unit EOD My vial lasting a total of 20 days. Within the first week body temperature rose, midsection was tightening up, water retention was non existent I believe due to the mast. The most noticeable positive was increased sex ...
