Reiki is a Japanese form of alternative medicine called energy healing. Reiki practitioners use a technique called palm healing or hands-on healing through which a "universal energy" is said to be transferred through the palms of the practitioner to the patient in order to encourage emotional or physical healing.

Deadlifting is a great muscle mass and strength builder. A study by researchers at Texas Tech University found that after ten-week deadlift training, great improvements in strength and stability were observed in both male and female participants - especially women who were relatively new to lifting.[..](#)
