Substance: Testosterone mix - Testosterone Propionate 30mg, Testosterone phenylpropionate 60mg, Testosterone isocaproate 60mg, Testosterone decanoate 100mg (Sustanon 250). Where can I get more information? Anyways, I finished my double cycle of Hexadron and Testosterone last week, finishing off with a gain of 25 pounds and my strength and endurance on most of workouts were drastically increased. Going to get a BMI scan done today to get my muscle mass and body fat measured and figure out total gains. Going to be interesting to see how strength and size declines now that I'm done with the cycle, if it even does decline.
