TB-500 (Thymosin Beta-4) TB-500 is a synthetic version of the naturally occurring peptide present in virtually all human and animal cells, Thymosin Beta-4. This potent peptide is a member of a ubiquitous family of 16 related molecules with a high conservation of sequence and localization in most tissues and circulating cells in the body.

TB-500 Peptide (Thymosin Beta 4) TB-500 is a synthetic peptide version of the naturally occurring healing protein present in about all human and mammalian cells known as Thymosin Beta 4 (TB4). Research has shown TB 500 to have beneficial effects on wound healing, injury recovery, flexibility, and inflammation.
