At a usage level of 250 mg/week, Sustanon provides basically only a high level of testosterone replacement therapy. Individuals with low testosterone may see a marked improvement, but many with mid-normal or high natural testosterone will see little added effect at this dosage level. Sustanon 250® is an oil-based injectable testosterone blend, developed by the international drug firm Organon. It typically contains four different testosterone esters: Testosterone propionate (30 mg)... ??? ?? ??? ?????? ????
