Just like Proviron, Primobolan is often called the safest steroid or a side-effect free one. To be fair, it does have a very mild side effect profile that allows users to run it in high doses for months at a time. (ref.) It does not aromatize. So estrogenic side effects are out of the question. Primobolan is actually a very weak anabolic steroid, weaker in fact, than Testosterone itself. It possesses an anabolic rating of 88,

while Testosterone's anabolic strength rating is 100 - this demonstrates Primobolan's fairly weak strength in terms of anabolic capabilities. ??Celebrate each day you are healthy!!! What a waste of words...I won't do it, you won't do it. Why? Because we take it for granted. That's ok and that's normal.

Primobolan is a steroid that many consider being the ultimate-steroid. The Holy Grail of the steroid world if you will. Not only does it have an awesome benefit to risk ratio. But it is also readily available, fairly safe if used correctly. Real Bayer Primobolan Depot 100 mg, a pharmaceutical steroid, is a gentle pharmaceutical grade steroid produced by Bayer Pharmaceuticals, and can be bought in the pharmacies in Turkey. It also goes under the generic name of Methenolone Enanthate.

This year has been filled with many trials, tribulations, changes, blessings, and most importantly growth. Although, I have gone through a lot this year, I wouldn't trade it for anything in this world. I was blessed to meet so many amazing people who have changed my life in ways I couldn't even explain. The amount of love, care, loyalty, and constant support these people have shown me, I honestly couldn't be more thankful for. This birthday, I was given a gift that truly meant a lot to me, although most people might not understand. This gift showed me that for the first time there were people that entered my life that TRULY care about my goals and dreams and will do whatever it is they can to help me accomplish them. Thank you guys for that. One of my biggest lessons this year, is something I taught myself. Change and growth are crucial in order to obtain whatever you want in life. I'm proud to say that I am working on myself more than I ever have, and I'm growing into the woman that I've always wanted to be. Yes, it's been extremely difficult, but I've never been happier. True happiness comes from within, from self-love and showing appreciation for the people around you. I'm going to continue doing what I love, changing the lives of thousands of people, and giving my loved ones everything they deserve. It's only up from here????????????????
