The standard Masteron dosage for adult men is typically 300-400 mg per week. This means 100 mg injections should be given every other day for 6-8 weeks. For women, dosages of 50 mg per week should be sufficient for 4-6 weeks. Some women can use up to 100 mg of the drug per week, but when

using such dosages, the first signs of virilization appear. [check this out](#)
