Safety. Results. Value.

When clenbuterol is taken to control asthma symptoms, the recommended dosage is between 0.02 and 0.03 milligrams per day. The medication comes in tablet or inhaler form for asthma treatment.

Put in work even on days you don't feel like it . DO IT ANYWAY!! Can you guess what I love to work on ☐☐. Loving every step of my process! I like sore sore & I like for it to burn.. if you ain't sore did you even work out ? ☐. let's gooooo the year ain't over and there is still time for new results #resultsarecoming #homeworkout #legs #booty #sore #herbalifenutrition #herbalife #fitnessmotivation #fitness #fitmom #momof3 #weightlossjourney #weightlosstransformation #weightlossmotivation #motivation #summergoals #gains

Welcome Kayleigh Powell

□ Soooooo, these photos were 5 years apart. The left one I was two months into my journey from 250 pounds. I was about a month and a half in and already down about 20 pounds. I was not keto I was low carb (100 carbs a day) and watching calories. I actually lost 80 pounds total and hurt my knee and gained most of it back. When I started Keto I was creeping back up to my highest. The right photo is on Wednesday. I tried to recreate the photo. Not meaning to toot my own horn but I honestly feel Keto has made me appear younger. I'm grateful for the journey and my 45 years.

Also commonly known as Astralean (Clenbuterol hydrochloride) or other nicknames including the simplified "Clen", the product is mainly manufactured by Alpha Pharma and comes in oral tablet form. A box of Astralean Clenbuterol contains anywhere from five to ten blister packs containing 10 tablets each.
