At the start of lockdown I swapped drawing tools for digging ones and set about growing food. While I get used to holding a pen again, in my newly nourished state, check out this dandelion powder I harvested! Dandelions are amazingly good for us and every part of them are edible. They flourish in all conditions, have spread across all the continents, they seize any opportunity to grow, they leave more goodness behind than they use up, they are the first plants to reappear after a wildfire and they just won't be gotten rid of. They're humble and tenacious little things that have conquered the world despite being seen as nuisance. Be like a dandelion! x

How to Use Bayer Primobolan Tabs. You can find Primobolan oral tablets as well as injection solutions. The Primobolan injectable form is known as Primobolan Depot, which is also manufactured by Bayer-Schering but sold by steroid shops around the world.

You can eat food grown from seeds, vegetables, and fruits. There's a debate as to if you can eat fish during a white fast as a source of protein but I decided to stay away from meat and fish during my white fast. [?]

Primobolan slightly reduces production of testosterone. Its overwhelming impact is weaker than testosterone and Nandrolone. Studies show that Primobolan cycle at a dose of 40 mg (oral) suppresses testosterone levels by 50%. A significant reduction in endogenous testosterone production is only observed at long cycles with high doses of the steroid.
