Sustanon - steroid

Medical Information e-mail. aspenmedinfo@professionalinformation. Sustanon 250, 250mg/ml solution for injection - Patient Information Leaflet (PIL) by Aspen.

Sustanon 100 Injection - 1mg

Key takeaways: Testosterone injections are effective medications for combatting low testosterone ("T") levels. They're a common type of testosterone replacement therapy. There are three main testosterone injections available for you to choose from: testosterone enanthate, testosterone cypionate, and testosterone undecanoate.

Sustanon 250 Injection - 1mg

1000mg to be given at 6 week interval for first two doses (to reach sufficient steady state testosterone more rapidly) then 12 weekly thereafter. Frequency can be increased to 10 weekly if testosterone level is suboptimal. Administer by intramuscular injection, slowly over 2 minutes. The first injection interval may be reduced to a minimum of 6 .
