The dosage is 25 mg once per day after a meal. Long-term use

Aromasin: Side Effects, Dosage, How to Take, Cost, and More - Healthline

#1 This is my first ever test cycle and steroid cycle in general. I've been on 400mgs a week of cyp for 1 week so far and it was recommended I use aromasin but my question is if it should be from day 1 or should I wait until I really need it. I was thinking I should start with 12.5mgs and then go from there, thoughts? GHgut4life V. I. P. Gold

Aromasin Profile - MESO-Rx

The recommended dosage of Aromasin is 25 mg once per day, taken after a meal. This dosage is commonly recommended. But be sure to take the dosage your doctor prescribes for you. They'll.

Aromasin - Secrets of Bodybuilding

Week 1-12: Arimidex 0.5 mg per day Week 14-16: Nolvadex 40 mg per day Week 14-16: Clomid 100 mg per day Week 16-18: Nolvadex 20 mg per day Week 16-18: Clomid 50 mg per day" Now, to the average steroid user, that probably doesn't look like a bad cycle outline and they may even be asking themselves what exactly is wrong with this.
