Testosterone gels	AndroGel Testim	5-10 g of gel per day

Study participants received testosterone in different doses such as 50mg, 100mg, 125mg, 300mg, and 600mg per week. The increases in fat-free mass were dependent on the testosterone dose given. Leg strength and power were also directly proportional to the testosterone dosage. This means that the higher the dose, the better the gym performance.

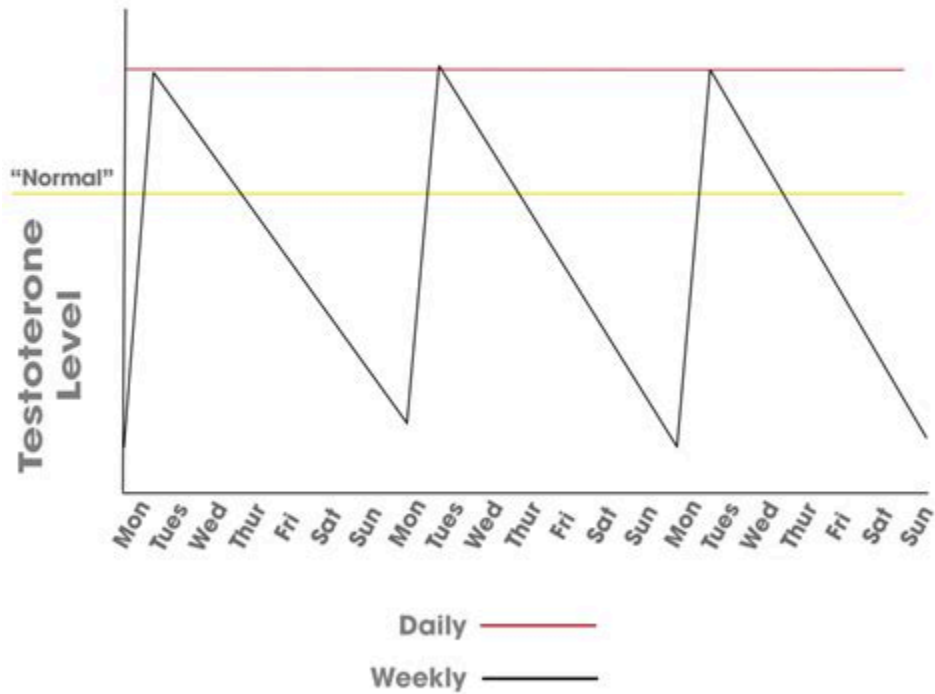

Testosterone therapy 100 mg every 2 weeks - theironden

Likewise, if you are using a 200 mg/mL solution, you are taking 200 mg of testosterone for every 1 mL injection. The dosages and frequency will depend on your own baseline testosterone levels found during an evaluation and blood labs done with an anti-aging clinic. The typical dosages for TRT are 50-400 mg and can be taken weekly, bi-monthly or .

TRT Twice a Week vs. Once Weekly - Renew Vitality

Weekly VS Daily Injections

thats a weird blend. the norm is 500mg/week though for just one kind of test. though one hardly tell the difference between test e and c (atleast i cant). either way, your getting about 760mg of test e and c if you inject twice a week which is more then plenty (thats depending if its 400mg/ml) thegodfather Well-known member Awards 1 Dec 31, 2010 #3

Is 400MG of Test a Week Enough? (Things You Must Know!)

Brand name: Depo-testosterone. Testosterone cypionate comes only in the form of an injectable solution given into your muscle. You can give this medication to yourself at home after your doctor.

How much Testosterone Should I Inject? Choosing the Right Testosterone .

Awards. 0. Oct 17, 2006. #1. I've read that deca is effective at 200mg/day doses, but only on a few threads. Most information sources say it should be dosed at 400mg/week. Would 200mg of deca with 750mg/week super test be enough to significantly lube the joints? i'm 34 yrs old and have problems with joint pain.
