There are a lot of other variables than can come into play here and alter your numbers but even if we simply look at total testosterone, it can be a very simple way to see how you metabolize exogenous testosterone as well as if your exogenous testosterone is of high quality and dosed properly. The anavar steroid is going to drastically improve your DHT functionality, but whilst you're aware that DHT hormones are important for developing "masculinity", we'd like to emphasize their "wider" role within the system. In women, testosterone is produced in the ovaries and adrenal glands, but hormone levels decrease as we age, often leading to low libido. If you're interested in optimizing your testosterone levels, get in touch! I'd be happy to get you back on track! ?? [find out here](#)

Study tips by someone who enjoy studying

1. Find a routine and stick with it -it's important
don't feel motivated that you are still able to s
and having a routine makes this a lot
2. Have a certain amount of hours dedicated to s
3. Revision sources don't need to be aesthetic, t
be useful, soon you won't need them
4. Checklists- it's important to record what you
need to prioritise
5. Yes, a clean quiet environment is important but
that or are having a bad day don't let it stop y
sometimes it's ok to study in a mess or no
6. Take breaks -your brain needs to rest, but make
them and only take them when you really need them (l
lose your groove) !
