I have ready mainly either 25mg or 50mg and wondering if with that dosage its menopause, PCOS, night sweats, hot flashes, weight loss and hormonal acne. Propranolol, which is a beta blocker, can inhibit the conversion of T4 to T3. It is normal, it does not mean you got a bad batch. It 💎s our queer pioneers and my allies who paved the way. I 💎m beyond thankful for all the support from my family, friends, and companions. I 💎ll remain visible for those who can 💎t be. ?
