Description Proviron Bayer Schering 25mg Tabs. Proviron acts as an anti-aromatase: it prevents the aromatization (conversion) of anabolic steroids into estrogen. It avoids gynecomastia and can be combined with Nolvadex to increase its effectiveness. It is indeed clear that Proviron and Nolvadex are both anti-estrogens whose mechanisms of action are different and complementary, and that's why ... ❖
If you see blood at the injection site after the needle is removed, you likely nicked a small blood vessel at or below the skin surface, and blood is following the needle track out to the surface.
