Time for some honesty. This comp prep has been physically tough, and mentally brutal. I'm so much stronger, and better than I was, and my expectations of myself are so high. I'll open heavier than my current total, and my new total will finally be something worth paying attention to. None of it came for free, in fact I've paid some immensely heavy prices. <u>look at more info</u>

As discussed earlier, equipoise is a very versatile compound. We can create a number of drug combinations with it depending on the desired result. For mass, one may want to stack it with Anadrol 50 or an injectable testosterone such as Sustanon 250. The result should be an incredible gain of muscle size and strength. #npccompetitor #bodybuilding #vancouveropen #vancouver_open #npcmensphysique #npc #npcfitness #npcworldwideoffical #npcnewstv #npcbodybuilding #gains #abs #gym #shredded Boldenone, also known as Equipoise, is a potent, well-balanced anabolic yet moderately androgenic steroid composed of undecylenate ester that stretches the activity of the drug such that you'll need to repeat your injections only once after a span of 3 to 4 weeks. equipoise results reddit, testosterone enanthate 250mg price, boldenone vs ...
