Test prop 125 eod and 150 eod? First week of test prop 125 eod then the next 150 eod so one week I hit 500 the next I 450 will it work? 06-20-2019, 08:38 AM #2. Fella Finn. My diet and training are spot on, so this should be covered. I am just worried 150 mg EOD is not enough. Am I right to say it works out as 525 mg per week, like this: (150 mg x 7 days) : 2 = 525 mg?

work on 150 ? (anyone have a 93 150 manual?) If your V4 is the 25" model with the V6 style gearcase
or is the 20" and happens to have a V6 style case, yes it will fit. However, it may not be the correct one.
You'll have to check the part number of yours against the part number in the V6 service manual.
