Testosteron Geofman is a long estered testosterone based injectable steroid which is considered the most basic for athletes and bodybuilders in muscle building cycles. It has high anabolic and androgenic properties and offers dramatic gain in muscle size, body strength, stamina, and performance, sexual drive and libido. #ejaculation #sperme #zinc #hormones #hormone #testosterone #preservatif #preservatif #capote #condom #virus #vih #sida #hiv #ist #contraception #prevention #prevention #sante #sante #santesexuelle #sexpositive #adolescence #sanstabou #education #educationsexuelle #sexed #educationpositive #sylexapp #sylex Testosterone enanthate is used primarily in androgen replacement therapy. It is the most widely used form of testosterone in androgen replacement therapy. The medication is specifically approved, in the United States, for the treatment of hypogonadism in men, delayed puberty in boys, and breast cancer in women. It is also used in masculinizing hormone therapy for transgender men.
