Description Aquatest 100 mg Aquatest 100 mg General information: Manufacturer: Balkan Pharmaceuticals Substance: Testosterone Suspension Pack: 5 x 1ml amps Products search FAQs But most commonly, Aquatest (testosterone suspension) is used on a daily basis. Some athletes choose to use as much as 200 mg per day, but this increases the risk of getting side effects so that's not a recommended practice. Most often testosterone suspension is used in a cycle that is going to last anywhere between 4 to 6 weeks. [understanding](#)

The 100 mg dosage refers to the amount of testosterone suspension present in each milliliter (ml) of the medication. This dosage is considered high and is typically used by experienced users who have already built up a tolerance to lower doses. Aquatest 100 mg is known for its fast-acting and powerful effects.
