Conception Vessel 4 (CV 4) is extremely powerful for chronic debilitating diseases. Because it is a crossing point for the Liver, Kidney and Spleen channels Conception Vessel 4 can treat a broad range of conditions: menstrual disorders, urinary disorders, sexual dysfunction, menopause symptoms, and intestinal digestive disorders.

Testosterone Cypionate was first created in the mid-1950s, and was released on the prescription drug market under the brand name Depo-Testosterone and manufactured by UpJohn (however, its brand name at first was labeled as Depo-Testosterone cyclopentylpropionate but was shortened for obvious reasons).

(Watson) American athletes have a long and fond relationship with Testosterone cypionate. While Testosterone enanthate is manufactured widely throughout the world, cypionate seems to be almost exclusively an American item. Decorticate and decerebrate posturing are abnormal posturing responses typically to noxious stimuli. They involve stereotypical movements of the trunk and extremities. [this post](#)
