EQUIPOISE injectable (boldenone undecylenate injection) is available in multidose vials of 50 mL, providing 50 mg/mL boldenone undecylenate. Storage Store at room temperature, 15Â° - 30Â°C (59Â° - 86Â°F). Avoid Freezing. Wyeth Animal Health, Division of Wyeth Canada, Guelph, Ontario N1K 1E4 Â® Licensed user of Equipoise These are the only variables that have changed, along w my skin. Being 7 months into Testosterone shots, I don't know I can say I've passed the worst of puberty re-acne as I know adult trans guys can go years w a skin struggles.

Nosso objetivo é analisar toda estrutura física do nosso aluno, identificar possíveis patologias, e assimetria corporal, analisar possíveis defasagens em agrupamentos que estão deixando o físico sem harmonia simétrica e proporcional.

Male athletes usually administer Equipoise in weekly dosages of 200-600mg for about 8-12 weeks while female athletes may use this steroid in weekly dosages of 50-125mg for 6-10 weeks. Post cycle therapy with Clomid and/or Nolvadex is highly recommended towards the end of or at the end of an anabolic steroid cycle involving Boldenone as one of ...
