analogue of  $\alpha$ -melanocyte stimulating hormone ( $\alpha$ -MSH), for gaining a tan. Molecular Weight. Images  
portrayed in the media directly influence the way people with disabilities are treated in current society.  
This goes on to show the power of media as a socialising agent that nudges people to think in a specific  
way. Media has been cited as a key site for the reinforcement of negative images and ideas in regard to  
people with disabilities. [additional resources](#)
